New Virtual Machine Wizard ✕

Welcome to the New Virtual Machine Wizard
A virtual machine is like a physical computer; it needs an operating system. How will you install the guest operating system?

Install from:

○ Installer disc:

No drives available ⌄

● Installer disc image file (iso):

C:\Users\Benja\OneDrive\Desktop\SYRACUSE MASTEF ⌄   Browse...

Ubuntu 64-bit 23.10.1 detected.
This operating system will use Easy Install. (What's this?)

○ I will install the operating system later.
The virtual machine will be created with a blank hard disk.
